DECORATIVE DAHLIAS

AMARYLLIS, Giant Hybrids

One of the most expensive, but also the most beautiful of indoor plants. Bulbs throw vigorous stems with several giant blooms of lily-like form, the colors in the mixture ranging from the richest self-colors as crimson and red, to pink, red and scarlet markings on white grounds.

Each 50c

ANEMONE

These popular flowers of French origin have always been in great demand. Every year the number of flower-lovers who wish to possess these richly colored blooms increases greatly. Exceedingly brilliant, excellent for cutting. They like to be planted about 2 to 3 inches deep in a cool, moist, but well-drained soil.

DE CAEN. Single flowers in many colors.

12 for 60c.; 25 for \$1.10; 100 for \$4.00

DOUBLE RANUNCULUS

These spider-like bulbs produce large, turban-shaped heads of fully double flowers in a great range of colors, including orange, red, yellow and pink. Blooms are 3 inches across or more. Very suitable as cut-flowers. Bulbs should be planted as early as possible in the spring in well-drained soil, preferably in a spot where they will not be too much exposed to the sun. Set the bulbs with the claws pointed downward, 3 inches deep and 6 inches apart. They are not hardy and must be taken up and stored over winter.

TECOLOTE GIANTS, Mixed.

12 for 60c.; 25 for \$1.10; 100 for \$4.00

ISMENE CALATHINA. 3 for \$1.50

FANCY-LEAVED CALADIUMS

Very showy foliage plants with red, green, and white variegated leaves. Marvelous pot-plants for the conservatory or sun-porch. Do well in shady window-boxes or even for outdoor bedding in shady or semi-shady positions. Bulbs do best if started in pots, planting one bulb to a 6-inch pot.

CANDIDUM. Popular white variety, green veins.

JOHN PEED. Bright red center; light green background.

MARY QUEEN OF SCOTS. Mottled dark to gray-green; red ribs and spots.

TRIOMPHE DE L'EXPOSITION. Dark green with red center and darker red ribs.

PUERTO RICO. Red center; narrow green margin.

HYACINTHUS CANDICANS

Produces a succession of flower-stalks reaching a height of 4 feet, each of which carries a score or so of pure white, bell-shaped flowers. They are very ornamental for borders and extraordinarily beautiful as a background. They grow and bloom in any soil. While liking the full sun, they do well in partial shade.

3 for 60c **12 for \$2.25** 25 for \$4.25

ACIDANTHERA

Charming and graceful bulb-flower. The mass of six or more tubular flowers suspended on gracefully arching, 2-foot stems is most distinctive. Maroon-black markings accentuate the creamy white petals. In bloom for months. A rarity but nevertheless a bulb of easiest garden handling. Plant, dig and store as you would Gladiolus.

Hardy Garden LILIES

No class of plants for outdoor growing possesses as many charms as Lilies. Rich in color, stately and handsome in habit, and of such delicious fragrance that they stand out prominently. No herbaceous border should be without at least a few of them. Lilies do best in the hardy border or among shrubbery. Any rich garden soil with good drainage will do. Most Lilies delight in a sunny location, but prefer to have the soil around the base of the plant somewhat shaded. Once established, they will increase in beauty each year.

Auratum (Gold-banded Japan Lily). Delightful fragrance. White, spotted deep red, with a bright yellow band running through the center of each petal. Grows 3 to 6 feet high. Blooms in August.

Henryi. The flower-stalks, 3 to 5 feet tall, carry 5 to 8 flowers each, of a rich apricot-yellow. The flower petals are curled beautifully. Blooms in August and September.

Longiflorum (Easter Lily). Large, white, trumpet-shaped flowers on 2-foot stems; delightfully fragrant. Hardy and prolific. Blooms in July.

Philippinense. Lovely long trumpet-like white flowers with a beautiful pale emerald-green throat which gives the flower a distinct appearance. Grows 4 to 6 feet tall. Blooms in August and until stopped by frost.

Regale. A regal beauty. Gorgeous, bell-shaped, white flowers with a touch of canary-yellow in the throat and a shading of lilac-pink on the outside. Grows 3 to 5 feet tall. Blooms in July.

Speciosum rubrum. Frosted white, suffused rose-pink and spotted crimson. The petals are gracefully reflexed. Blooms in August and September, with many flowers on each 3 to 4-foot stem.

Tenuifolium (Coral Lily). Dwarf, very graceful Lily, with clusters of recurved flowers of brilliant coral-red. Blooms in June. Height 18 inches.

Tigrinum flore-plena. Large, showy blooms of a bright salmon-orange spotted with purplish black. Grows 3 to 4 feet tall and blooms August and September. Very easy to grow.

Umbellatum. Large, straight, funnel-shaped flowers of burning red-orange color. Easily cultivated, robust and well suited to every garden condition. Blooms June and July. Height 2 feet.

Giant-Flowered Begonias

Begonias are, perhaps, the handsomest of all summer-flowering plants. They are very popular for use in window-boxes, as house-plants, and for planting in beds or groups in moist, shaded areas. Gigantic flowers appear uninterruptedly from July until frost. Bulbs may be lifted in autumn and stored in a cool place over winter for planting the following spring.
